

Lindsay McKeighan

Experience Designer

Area of Focus

User Experience with focus on information architecture, drawing from time in UI and Visual design.

Trained in Graphic Design practices and proven in environments where design drives positive user experiences with profitable, educational and measurable interactions.

Writes xHTML, CSS, SASS, which informs strategizing, journey mapping and prototyping experiences.

Built and developed creative, client servicing, high-performing teams- always seeking to improve processes

Collaborates closely with product owners and solutions design teams for quality product outcomes
